

According to the SAMHSA NSDUH, ~50% of people who misuse prescription pain relievers get them from friends or family. We must put a stop to this!

WANTED

expired or unused medications

Time to deliver some prevention, send in the detectives.

I'm built to fit every community and reach the right people and neighborhoods. As a team, we measure the impact.

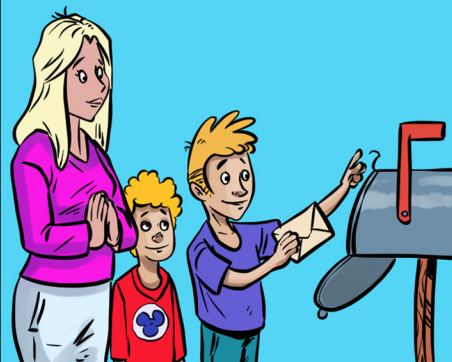

The Household Prevention Program

Let's find these medications and deactivate them for good

Keeping your home safe starts here

Make it a habit by regularly cleaning out your medicine cabinet.
